The Webinar held on June 17, 2020 conducted by Trisakti Institute of Transportation and Logistic (ITL Trisakti), IRSP President as the resources person while the Secretary General of IRSP as the moderator. The others speakers are Director of Transportation of National Planning Development Agency, Director of Safe and Security of National Traffic Police Corps, Director of Means of Land Transport of Ministry of Transport, Deputy Director of Center for Transport Research Universiti Teknologi Brunei. The Zoom Webinar attended by 602 participants and the streamline at youtube attended by 187participants.

4) Formulating a KSP (Knowledge Sharing Program) between IRSP and the Indonesia Transportation Research Agency.

Study on “Enhancement Program of Road Safety for Children” has been conducted within 6 months, the budget allocation was from Indonesia Transportation Research Agency with amount of RP 200,000,000. The project aimed to provide an overview of the implementation of road safety program for children in Indonesia, some of the problems faced, opportunities and efforts to implement road safety programs, and some lessons learned from South Korea.

Project(s) Under Development: (brief description of project and partners involved, anticipated budget and source of funding, anticipated commencement date, duration and outcome sought)

1. Safer Mobility Area for Children and Youth (SMA4CY): the project did not run because it did not pass the selection.
2. Formulating Joint Research between IRSP and the Indonesia Transportation Research Agency: the project did not run due to reallocated budget for combating the pandemic of covid-19.
3. Establishment of a Transport Safety Research Group: idem, reallocated budget.
4. Jointed research between among IRSP, Human Resources Development Agency Ministry of Transportation (HRDA of MOT), Malaysian Institute of Road Safety Research (MIROS), and Trisakti Institute of Transportation And Logistic (ITL TRISAKTI). The MoU has been signed on August 11, 2020, at Grand Ballroom Bangi Resort Hotel Malaysia. Later on, this MOU will be implemented in various activities such as:
 - a. Collaboration in Education and Training;
 - b. Staff Attachment;
 - c. Students Industrial Attachment, including Exchange of Research Personnel;
 - d. Joint Supervision of Undergraduate and Postgraduate Research Students;
 - e. Collaboration in Research and Development Projects;
 - f. Consultancy;
 - g. Certification Program;
 - h. Program Development; including joint programs in promoting advancement of road safety; and
 - i. Any other areas of co-operation to be mutually agreed upon by the Parties.

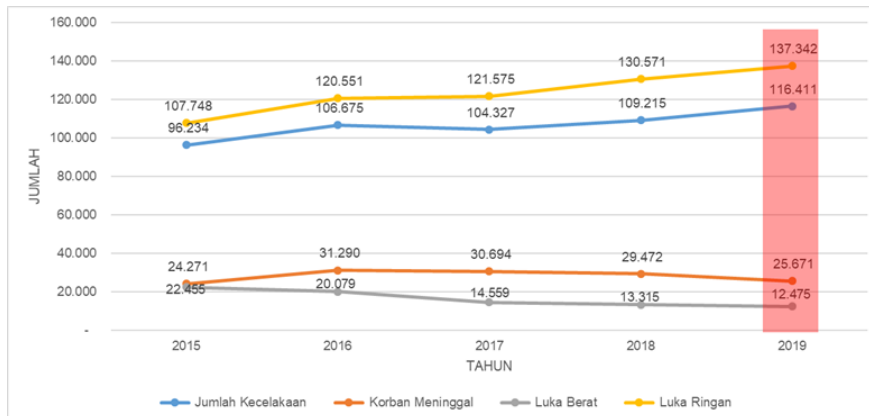

For the realization of this MoU, the Parties agreed to carry out contributions as mentioned below:

- a. The IRSP will facilitate cooperation between more than two parties and provide experts.
- b. HRDA of MOT will provide the lecturer, means and infrastructure.
- c. MIROS will elaborate research and innovation programs related to road safety and provide assistance in road safety development.
- d. ITL TRISAKTI will provide the lecturer, researcher.

Issues of Concern: (If any)

1. Motorcycles involved in the accident is still reaching 70 percent of the total vehicles
2. Speeding is one of the high risk potentials in traffic injuries, especially during covid19
3. Overloading .
4. Sudden brake failure on big buses and trucks .
5. The reviewed document of Master Plan of Road Safety has been send to Bappenas as a coordinator of 5 pillars

Local road safety related trend(s):

Sumber: Korlantas POLRI 2020 (diolah)

Matters of interest:

1. Development of Transportation Accident Database
2. Establishment of a National Road Transportation Safety Agency
3. Research and Development Collaboration
4. Road Safety Action Collaboration

Photographs/website links to highlight project delivery/achievements (attached/included):
